ATM INAUGURAL

The SBI ATM was inaugurated at IIITDM KURNOOL on 19th July by our director Prof. DVLN Somayajulu in the presence of Shri. Ravi Mohan Saxena , DGM , SBI and Shri. R.V.Hanumantha Rao , AGM , SBI Kurnool.

MOU WITH CENTILLION

IIITDM Kurnool signed a Memorandum of Understanding (MoU) with Centillion Networks Pvt Ltd, Hyderabad, a global leader in Engineering Designs. The MoU creates a framework for multifaceted Research & Development on advanced technologies in the field of Drones, Robotics and Artificial Intelligence. This will help IIITDM students to get hands on experience in business valued technological solutions in today's highly competitive environment.

With a strong global client base in USA, Australia and Europe in Telecom and Utility and 300+ engineers, Centillion brings valuable insights in defining pertinent challenges and solutions across various industries. This collaboration brings together different Engineering innovations from around the World and leveraging technology to build tomorrow's enterprises.

THE FIRST CONVOCATION

IIITDM Kurnool celebrated its First convocation on August 5th, 2019 at the Institute Auditorium in our campus here. Our honourable chief guest Prof.H. A. Ranganath , Chairperson , Board of Governors , Prof. DVLN Somayajulu, Director, IIITDM Kurnool, BoG Members and Senate Members of IIITDM Kurnool graced the occasion. Our esteemed director announced the Duruvasala Manikyamba Memorial gold medal for extraordinary academic performance of girl students from the CSE department in the memory of his mother.

HEALTH CENTRE INAUGURAL

Our honourable director Prof. DVLN Somayajulu inaugurated the Health Center at Kalpana Chawla Hall of Residence on 9th August, 2019. The Health Center aims at providing basic medical facilities for the students, faculty and the staff. It has facilities for OPD treatment and works as a primary care center with all the necessary provisions and scope for a referral to higher centers when required. The treatment room is open 24x7 with at least one nursing staff present all the time . Also the Ambulance services can be availed at anytime of the day in case of an emergency. One doctor will be available from 5 to 7 PM every day.

STUDENT INDUCTION PROGRAMME

A grand welcome in the form of a six day student induction program was conducted for all the ignited freshie minds by our institute. The program aimed to make the first years calibrate with the flux of college life. The program was kickstarted by our honourable director Prof.DVLN Somayajulu 's motivational talks and presentations that stirred up the enthusiasm of the crowd . He emphasized on how the design and manufacturing related curriculum benefits the students. He also gave an insight on advanced technologies like machine learning and Artificial Intelligence . He introduced the HODs and faculty members of the institute.

The week saw tremendous young talent participating in various activities and interacting with highly experienced professionals. Prof Sai Kumar (Former Professor, IPE, Hyderabad) presented on the topic 'Expectations from Budding Engineers' and inspired the students on how to use their 4 years at campus beneficially and Shri SS Raju (Visiting Faculty, IIITDM Kurnool and 34 Years of work experience in various industries like HAL, Honeywell, ADE) presented on the topic - 'Academics at IIITDM, the gateway to your big GOAL'. Also Dr.Sudhir Varadarajan (Associate Professor, IIITDM Kancheepuram) 'cultivated curiosity' among students on innovative and design thinking . Dr Gobinath (Consultant General Physician, KIMS Hospital, Kurnool) focused on vitality of having good health. Prof. P D Ravikumar (Dept. of Physical Education, NIT Warangal) explained how physical fitness is important for mental fitness and also highlighted his point on personal hygiene. Mrs. Kranthi's art of living session rejuvenated the students and they enjoyed the pranayama and yoga sessions. The students were further invigorated through a demo on IOT projects by a young entrepreneur Mr. Anuroop Mrityunjay (FGOR technologies, Hyderabad) .

INDEPENDENCE DAY

The 73rd Independence Day celebrations commemorating the freedom of our nation started with high spirits and patriotism in heart for mother India. The event started with our honourable director Prof. DVLN Somayajulu hoisting the flag and delivering an incredible speech.

It was succeeded by an NCC parade, followed by mass run organised by our NSO team from college to our hostel Kalpana Chawla Hall of Residence. The cultural events took place in a full swing and students danced, sang and enacted plays with high enthusiasm. The certificate for academic excellence in the batch : 'The batch topper' award was given to students by our director. The first years participated whole heartedly in all events

PYTHON SESSION

An introductory Python session was conducted on 23rd August. Mr. S. Ramanamurthy from Codetantra enlightened the gathering with his positive and encouraging words on how an engineer should use his skills and also gave a briefing on python- the future tech.

FIT INDIA MOVEMENT

The "FIT INDIA MOVEMENT" was started by our honourable Prime Minister on occasion of the National Sports Day on 29th august. Our institute acknowledged this event by telecasting the live show from New Delhi. The live telecast depicted how fitness binds us in cultural diversity. Soon after, a mass walk was organized across the hill from our college. Director sir, the faculty members and students participated in it with great zeal.

CURRENT AFFAIRS AROUND YOU

- India's ace player Abhishek Verma won the gold while teen sensation Saurabh Chaudhary claimed the bronze as Indian shooters dominated the podium in the men's 10 metre air pistol event of the ongoing ISSF World Cup in RioDeJaneiro.

MAGNUM OPUS

TOPIC: YOUR ESCAPE FROM THE WORLD.

Time has always permitted me to relate our body with nature...

Butterflies in stomach, bees in my head, gone nuts and the list goes on..

Well I suggest mind is a monkey ... it never stays in a place.

Well thank god .. my escape from this world is under the roof of stars and over the lap of nature..where my soul is finally free from all the worldly issues.

N. Utham

119CS0002

When I wish to take break from this world, I would simply sit and stop my duties and start to enjoy all the movements around me. That time I have been wondering to know the intention of all silly activities we are doing, is it happiness in doing work or is this the only expression of life that is throbbing within us.

When I completely switched off from this physical world by closing my eyes I feel the explosion of ecstasy within myself, leaving an unconditional smile on face. And longing to be in that condition doesn't let me open my eyes

If this society let me to be like that I would definitely

"Escape from this world"

RAMA KISHORE

118ME0022

Far away from the hill....

The Sun is bidding adieu...

My mind is stuck in whirlpool of tasks....

Pending Projects, Assignments....

Class tests, attendance

As the dawn came, my mind stayed awake

Trying to think, not to think

And weirdly enough through all this

The twinkling starsand the

Full Moon made me land on cloud nine

Hoping about tomorrow, went to sleep tonight

Mohammad

117CS0033

The assumptions I draw about myself when I detach myself from the world are quite contradictory to the way I am in the real world. So, staying with the world, in the world helps me explore more about myself. But the thought of writing it this way struck me when I was in my own world of thoughts.

- Beautiful mess

V. Sruthi

119EC0005

Many of us seek community solely to escape the fear of being alone. Knowing how to be solitary is central to the art of loving. When we can be alone, we can be with others without using them as a means of escape.

Desperation is the raw material of drastic change. Only those who can leave behind everything they have ever believed in can hope to escape. But many of us seek few people solely to escape being alone but now I need to antipode it.

C.SHASHANK

119CS0035

A World of pain
A World of bain
It will be the same
No one to blame...
I need an escape
From this world
From my emotions and pain
Where the sorrows are not in frame...
I want my wings...
To dive then rise
in the seamless skies
where boundary is not visible to eyes...
But I must return To...
A World of pain
A World of bain
It will be the same
No one to blame..

SHAIK SHOYAB AZMAL

117CS0006

When it comes to my case , instead of escaping from any scenario that feels like a bit stressful , I take some time to relax and free myself from it by indulging myself in other activities .

And retrieve with a strategy in order to tackle the critical situation .

KRISHNA VINEEL

118CS0017

I want to escape from the world because I never let myself to see the world.

I want to escape from the world because I worked 24/7 as a father and an employee.

I want to escape from the world because I hadn't slept even one night properly as a father and an husband.

I want to escape from the world because I already gave my children an excellent life.

I think I won't get anything there because my happiness and joy is my family.

P.V.S.BHARGAV

119ME0023

"Your escape from this world" is about the perfect time-management for intermediate breaks in our busy- mechanical life which makes us as robots with blood and flesh. We are also losing our human emotions and relationships, which are also important, apart from our busy life. I would like to make new friends so that I can improve my basic human interactions. I also listen to music to gain peaceful mind.
